การนำเข้าไฟล์ Wireframes Kit

The screenshot shows the Axure RP software interface. On the left is a sidebar with the user profile 'Kittimasak Naijit', a search bar, and navigation options like 'Recents', 'Community', 'Drafts', 'All projects', 'Resources', and 'Trash'. The main workspace is titled 'Recents' and displays 'Recommended resources from Community'. These include a 'Finessing UI/UX Design Presentations' template by Bright Chinenyeze and a 'User Flow Diagram Template' for FigJam by Jarek Ceborski. Below this, there are tabs for 'Recently viewed', 'Shared files', and 'Shared projects'. The 'Recently viewed' tab is active, showing three items: 'Customer Relationship Management', 'Customer Relationship Management - UI D...', and 'Design System'. In the top right corner of the main workspace, there is a toolbar with buttons for 'Design', 'FigJam', 'Slides', 'Buzz', 'Site', 'Make', and a button with a document icon, which is highlighted with a red box and a red arrow pointing to it from the right.

Design System

มาตรฐาน แนวทางที่ถูกกำหนดขึ้น

ใช้ในการออกแบบและพัฒนา **UI (User Interface)**

เพื่อให้ทุกคนในทีมสามารถสร้างสรรค์งาน

ได้อย่างเป็นระบบและมีความสอดคล้องกัน

ทั้งด้านรูปลักษณ์ (Visual) และการใช้งาน (Functionality)

Design System

- สร้างความ **สม่ำเสมอ** (Consistency) ในทุกช่องทางและทุกผลิตภัณฑ์ของแบรนด์
- **ประหยัดเวลา** ในการออกแบบหรือพัฒนา ไม่ต้องเริ่มจากศูนย์ทุกครั้ง
- ง่ายต่อการ **ปรับปรุง** หรือ **ขยาย** (Scalability) เพราะทุกอย่างมีโครงสร้างชัดเจน
- ทำให้ทีมสามารถทำงานร่วมกันได้อย่าง **ราบรื่น** และ **มีประสิทธิภาพ**

Design System

ทำไมต้องมี Design System

ปัญหาที่มักเกิดเมื่อ **ไม่มี** Design System

- สีเดียวกัน แต่ใช้หลายเฉด
- ปุ่มหน้าตาคล้ายกัน แต่ behavior ต่างกัน
- Designer ออกแบบไม่ตรงกับของที่ Dev ทำ
- แก่ UI ที่หนึ่ง กระทั่งทั้งระบบ

Colors

Our color system builds on the recognition of the VirtualShield brand colors to make the admin interface more usable.

Colors have meaning

Colors have assigned roles, which hold a specific meaning based on how they function within the interface. Defined color roles make things easy to modify and customize later.

Communication is key

Colors role

	Brand color	Red is used as the main recognizable color for VirtualShield. We avoid using red as a part of communication on the interface.
	Surface	Shades of gray are used correctly to represent the order in which elements appear on the interface.
	On surface	A dark palette should be used to overlay contrasting elements on the surface.
	Success	We want to associate green with positive emotions, like the positive completion of a process, the completion of a task, or just being secured.
	Warning	The yellow palette is used to indicate an emergency situation, e.g. in the context of sending alerts, or when a disconnect is inactive or the user is not protected.
	Interactive	When creating the entire palette, we wanted to find a color that stood out yet was approachable to use to highlight buttons, main actions and encourage user interaction.

Large: edge

Typography

Typographic hierarchy system based on human interface guidelines. Authentic form while keeping text legibility, prioritize and emphasize important information.

Style with purpose

A disciplined consistency with how you size and style type makes the whole system more intuitive to use. Merchants who learn how to navigate one experience can apply that same knowledge to each new experience they come across.

Stay flexible

To make things accessible to audiences with different eyesight constraints across different browsers, and different mobile devices, make sure to design in a way that works no matter what font size the merchant opts to use.

Neutrals

Error

Success

- Primary/Secondary สีที่ใช้เป็นส่วนมากใน Platform ส่วนใหญ่จะสีของแบรนด์
- Accent สีที่ต้องการให้เด่นออกมาจากสีหลักของแบรนด์ เช่น ป้าย หรือ ปุ่ม
- Neutrals สีทั่วไปสำหรับเป็นสีพื้น / สีตัวอักษร
- Semantic สีที่สื่อความหมาย เช่น
ผิดพลาด=แดง , สำเร็จ=เขียว

Assignment

ให้นักศึกษาทำ Design System จากหัวข้อ Project Work ที่ได้เลือกไว้

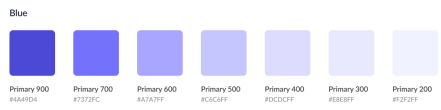

Primary Colors

Blue is the primary color, used mainly in primary actions, text links & buttons.
As it indicates the Trust, peace & loyalty.

Secondary Colors

Green

Yellow

Orange

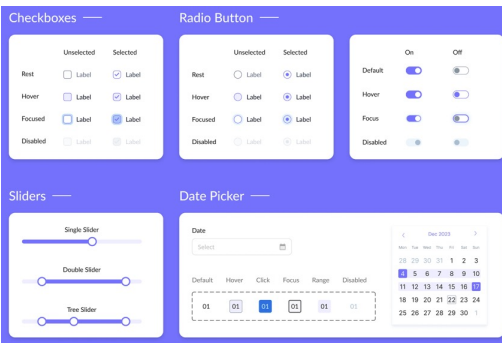

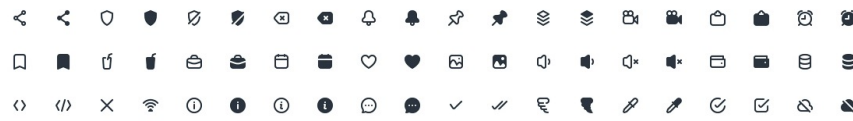

Typeface

Font Name	Font Weight	Font Style
Lato	Regular Medium Bold	ABCDEFGHIJKLMNOPQRSTUVWXYZ abcdefghijklmnopqrstuvwxyz 123456789

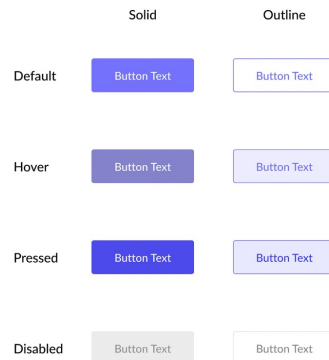

Hierarchy

Name	Weight	Size
Heading 1	Bold	84
Heading 2	Medium	64
Heading 3	Medium	48
Heading 4	Regular	40
Heading 5	Medium	32
Heading 6	Medium	24
Body 1	Medium	20
Body 2	Regular	16
Body 3	Regular	14
Caption	Regular	12
Outline	Regular	10
Button 1	Medium	16
Button 2	Regular	14

Spacing

Proper Spacing is one of the basic but most important elements in every great design. It helps organize information while also setting the rhythm, structure, and hierarchy in your design.
